

## CLAIMS

What is claimed is:

- 1 1. A method for generating a list of desired products for presentment to a person  
2 other than the user, comprising the steps of:  
3 (a) receiving a plurality of product identifiers from a user utilizing a network,  
4 wherein each product identifier is associated with a particular product;  
5 (b) generating a list of the products; and  
6 (c) presenting the list to a person other than the user.
- 1 2. A method as recited in claim 1, wherein the product identifier is a representation  
2 of a bar code associated with the product.
- 1 3. A method as recited in claim 1, wherein the user identifies the other person,  
2 wherein an electronic copy of the list is sent to the other person.
- 1 4. A method as recited in claim 1, wherein the list is stored at a network site,  
2 wherein the other person downloads the list from the network site for viewing  
3 locally.
- 1 5. A method as recited in claim 1, wherein the list of products also includes  
2 information about at least one vendor of the products.
- 1 6. A method as recited in claim 1, wherein the network is the Internet.
- 1 7. A computer program product for generating a list of desired products for  
2 presentment to a person other than the user, comprising:

- 3 (a) computer code for receiving a plurality of product identifiers from a user  
4 utilizing a network, wherein each product identifier is associated with a  
5 particular product;
  - 6 (b) computer code for generating a list of the products; and
  - 7 (c) computer code for presenting the list to a person other than the user.
- 
- 1 8. A computer program product as recited in claim 7, wherein the product  
2 identifier is a representation of a bar code associated with the product.
  - 1 9. A computer program product as recited in claim 7, wherein the user identifies  
2 the other person, wherein an electronic copy of the list is sent to the other  
3 person.
  - 1 10. A computer program product as recited in claim 7, wherein the list is stored at a  
2 network site, wherein the other person downloads the list from the network site  
3 for viewing locally.
  - 1 11. A computer program product as recited in claim 7, wherein the list of products  
2 also includes information about at least one vendor of the products.
  - 1 12. A computer program product as recited in claim 7, wherein the network is the  
2 Internet.
  - 1 13. A system for generating a list of desired products for presentment to a person  
2 other than the user, comprising:
    - 3 (a) logic for receiving a plurality of product identifiers from a user utilizing a  
4 network, wherein each product identifier is associated with a particular product;
    - 5 (b) logic for generating a list of the products; and
    - 6 (c) logic for presenting the list to a person other than the user.

- 1 14. A system as recited in claim 13, wherein the product identifier is a  
2 representation of a bar code associated with the product.
- 1 15. A system as recited in claim 13, wherein the user identifies the other person,  
2 wherein an electronic copy of the list is sent to the other person.
- 1 16. A system as recited in claim 13, wherein the list is stored at a network site,  
2 wherein the other person downloads the list from the network site for viewing  
3 locally.
- 1 17. A system as recited in claim 13, wherein the list of products also includes  
2 information about at least one vendor of the products.
- 1 18. A system as recited in claim 13, wherein the network is the Internet.
